

## Everest Sunrise trek (3865m)

### Details

This Everest Panorama Trek from Discovery Mountain Trek is a rewarding trekking experience that lets you have close-up views of Mt. Everest, Lhotse, Nuptse, Ama Dablam and other peaks of the Everest region. In this trek you will see unobstructed panoramic views of the mighty peaks, see a busy culture at high altitudes, and fly to the exciting Lukla Airport - the gateway to Everest Region.

This is a world of natural beauty of the mountains, and trekking here is about exploring a piece of the diverse Khumbu region. Also known as Everest View Trek, this program is one of the least challenging treks in this area. The joyous walk through mountainous landscape is a journey near hills, waterfalls, alpine forests and snow-capped peaks. The ever-looming and omnipresent white peaks will inspire you in this trek. As you trek to higher altitudes, you will notice the thinning vegetation by the hour. The Nepalese national flower, rhododendron, is also found blooming if you happen to be here in season. As for the wildlife, you might see the elusive snow leopard, the Himalayan black bear, musk deer, blue sheep, and other species who call this place home.

Our Everest Panorama Trek begins with an exciting flight to Tenzing-Hillary Airport at Lukla. The scenic 45 minute flight from Kathmandu will suddenly bring you to the laps of the mountains. From Lukla, we will trek to Phakding, to Namche, and beyond. At Namche, you can use the Internet, relax in a hot sauna, enjoy a shot of espresso, or simply sleep at a luxury hotel. This prosperous village is also called by many as the Sherpa Capital of Nepal!

Leaving behind Namche, we will visit several other villages right in the foothills of Everest. You will even see the ice walls of Thamsherku and Lhotse-Nuptse, and a snowscape that will enchant you. Everywhere you go on this trek, you will see at least one peak of the Himalayan Range - such is the proximity to the mountains. We will see the mountains of Ama Dablam, Everest, Lhotse, Nuptse, Pumori, Tawache, and Thamsherku in this trip. This program from Discovery Mountain is designed with beautiful views in mind. You are invited to explore the Sherpa culture and overall, see a community thriving in the laps of Everest.

## ENVIRONMENTAL CONCERNS

The Everest Region is stunningly beautiful, but equally fragile. Future generations have just as much of a right to appreciate it as much as we do. Therefore, we believe that the tourism industry has an obligation to protect and preserve it. Discovery Mountain employs a 'zero impact' policy on the natural environment and the traditional communities that live there. Discovery Mountain, therefore, enforces a number of do's and don'ts. Please talk to your trek leader to avoid environmental impacts.

## TRAVEL INSURANCE

It is a condition upon joining any of Discovery Mountain's trips that all clients be insured for comprehensive expenses that might incur due to medical issues or accidents (this includes air ambulance, helicopter rescue, and treatment costs). Please note that we don't arrange or sell insurance.

## ACCLIMATIZATION

This trek's itinerary is planned with a high degree of awareness of AMS (Acute Mountain Sickness). Going up at higher altitudes too fast causes a medical condition serious enough to result in death. The higher the altitude, the less oxygen will be in the air. For example, at an altitude above of 5000m, there is 50% less oxygen than at sea level. Therefore, our body needs many days to adapt to an environment with less oxygen. During this trip, we take rest in Namche Bazaar and Dingboche which will help us acclimatize to the high altitude.
